// TECHNICAL SESSION // OPEN SOURCE COLLOQUIUM

Open Source Summit: Spring Edition Speaker & Sprint Announcement

EXECUTIVE SUMMARY & DISPATCH INTENT:

Collegiate technical symposium featuring keynote addresses from upstream maintainers, RFC formulation sprints, and fellowship mentorship.

1. SYMPOSIUM AGENDA

The Spring Open Source Summit convenes active student maintainers and industry contributors. The agenda comprises keynote panels on upstream kernel contributions, Apache / CNCF governance models, and open protocol standardization.

2. CODE SPRINT & PROPOSAL CLINIC

Dedicated mentorship pods for Google Summer of Code (GSoC), Linux Foundation Mentorship (LFX), and Major League Hacking (MLH) fellow candidates. Maintainers will conduct direct pull request reviews.

3. KEYNOTE ADDRESSES

Session 01: "Designing Resilient Distributed State with eBPF" — 10:30 AM.
Session 02: "RFC Mechanics and Consensus in Modern Compiler Frameworks" — 02:00 PM.

4. ADMISSION & ACCESS PROTOCOL

Open to all registered university students. Advance seating reservation is mandatory due to auditorium capacity constraints.
