// COMPETITION // HACKATHON RULEBOOK

HackCSE Collegiate Hackathon 2024 Rulebook & Schedule

EXECUTIVE SUMMARY & DISPATCH INTENT:
Official technical guidelines, judging rubrics, track briefs, and mentorship allocation for the 36-hour annual departmental hackathon.

1. COMPETITION STRUCTURE

HackCSE is a 36-hour continuous software engineering hackathon bringing together multidisciplinary engineering teams to build production-grade prototypes.

2. TRACK ARCHITECTURES

Tracks include: (A) Autonomous Systems & Edge AI, (B) Distributed & Cryptographic Systems, (C) High-Throughput Developer Tooling, (D) Open Innovation for University Infrastructure.

3. CODE OF CONDUCT & CODE INTEGRITY

All codebases must be initialized from zero after the opening ceremony. Pre-existing code repositories will trigger immediate disqualification under automated Git commit audit rules.

4. EVALUATION CRITERIA

Technical Depth (35%), Architectural Soundness (25%), Functional Completeness (20%), UX & Polish (20%).
