// TECHNICAL SESSION // RESEARCH & COLLOQUIUM

Department Colloquium: Autonomous Systems & Distributed Architecture

EXECUTIVE SUMMARY & DISPATCH INTENT:

Special academic colloquium and technical paper reading on distributed consensus algorithms, Raft protocol verification, and fault-tolerant cloud runtimes.

1. COLLOQUIUM THEME

The Department of Computer Science & Engineering in association with FCIT convenes a high-tier colloquium on formal verification of distributed state machines, TLA+ specifications, and asynchronous replication protocols.

2. PAPER PRESENTATION & DISCUSSION

Selected research scholars and student researchers will dissect breakthroughs in distributed storage consistency models and verifiable decentralized consensus systems.

3. SCHEDULE & PLATFORM

Date: June 05, 2025
Time: 02:30 PM - 05:30 PM IST
Venue: Virtual Stream + CSE Main Auditorium (Hybrid Session).

4. PARTICIPATION REQUIREMENTS

Attendees are advised to review the distributed consensus background reading list distributed via internal departmental mail.
